

Air 3000 Small

The **Air 3000 small** is a premium quality FFP3 moulded cupped mask offering excellent respiratory protection with optimal fit. The Air 3000 small is a smaller version of our best selling 'KLASS Air 3000' disposable respirator. The Air 3000 small has passed the reusable and dolomite tests certifying it as **FFP3 R D**.

Key features

- Designed to fit smaller sized faces
- Reusable - suitable for multiple shifts
- Dolomite tested
- 4 point adjustable straps for a superior and more comfortable fit
- 'Klass' signature extra large exhalation valve for even lower breathing resistance
- Manufactured using premium quality filter material
- Comfortable to wear and easy to put on
- Metal free
- Full foam inner face seal for added comfort and a better fit
- Robust outer shell for added durability
- Performs exceptionally well on Face Fit Testing - excellent feedback by the 'Fit2fit' community of professional face fit testers
- Preformed nose bridge reducing the need for frequent adjustment
