

Air Sigma

The Air Sigma is a premium FFP3 valved mask with a unique mesh on the outer layer of the mask. The Air Sigma is durable, comfortable and an excellent option for a high quality FFP3 mask.

Key features

- Hard wearing outer mesh layer – Increases shape retention and durability
- Exhalation Valve – reduces moisture and heat inside the mask
- Full foam face seal for added comfort and a superior fit
- Fully adjustable head strap enhances excellent fit
- Metal free - suitable for industries such as mining, food, electronic.
- Nose clip-free: pre-formed shape removes need for regular adjustment
- The mask is made with high quality materials and performs excellently during face-fit testing.
- Protection against harmful and toxic substances such as fine dust, smoke and aerosols.

Applications

- Welding
- Cutting and Casting of Metals
- Hospital
- Iron and Steel Industry

- Mining
