

The Air 3000 Valved disposable respirator

The ideal mask for face fit testing

By Microlin Cooper

1. Preformed nose bridge

- Reduces the need for frequent adjustment
- Metal free for use in food and healthcare industry

6. Four - point strap

- For better face fit and adjustment

2. large exhalation valve

- For easier breathing
- Lower heat and humidity in the mask

5. Certified

- UKCA
- EN149:2001 + A1:2009

3. High performance filter media

- Electrostatic charge for better filtration
- Filters at least 99% of the air

4. Inner foam face seal

- Better fit
- Higher comfort
