

ANTI VIBRATION

DESCRIPTION

These economical cotton/poly knitted vibration damping gloves are coated with "pods" of lightweight cellular polyurethane. The combination makes for extremely comfortable vibration reducing gloves that use encapsulated air to cushion and dampen vibration, giving the user good dexterity, a lightweight feel, and reduced bunching.

RECOMMENDATION

- Jack hammers
- Sanding
- Machine ramming
- Percussion screwing
- Power tools
- Other pneumatic devices

PRODUCT INFORMATION

Material	Coating: Chloroprene coating Liner: Cotton and polyamid fibres
Colour	Black
Packaging	10 pairs per bag
Sizes	9,10

CERTIFICATION

Satisfies 89/686/CEE
EN 420 2003
